

# PROTECTIVE CABLE MATTING

## Technical information

### Features:

- ◆ A flexible closed cell elastomeric nitrile foam rubber
- ◆ High performance product
- ◆ Basket and floor matting versions available
- ◆ Saves on heat loss with excellent thermal conductivity, noise reduction, insulation and vapour barrier properties

### Applications

|                     |   |
|---------------------|---|
| <b>Applications</b> | HVAC & Insulation , vapour/frost barrier, anti vibration, refrigeration, energy conservation, sound deadening, pipework insulation (hot and cold), electrical protection/insulation, data cable protection/insulation |
|---------------------|---|

### Technical Details

|                          |   |
|--------------------------|---|
| <b>Standards</b>         | Produced according to BS EN ISO 9001 (and comply to BS-EN ISO 14001) CFC and HFC free, Low Smoke emitting and produced as Halogen based retarder(s) free material |
| <b>Colour</b>            | Black   |
| <b>Density</b>           | 90 -110kg/m3  |
| <b>Cell Structure</b>    | Closed cell/fine  |
| <b>Flammability</b>      | BS476 Part 7 Class 1 Pass, self extinguising Pass, non drip Pass  |
| <b>Temperature Range</b> | -40 °C ~ +116 °C  |
